- » Clogging is a progressive class. Start at beginner before you will move into Intermediate.

Please Note:

- » Feedback suggests it is too difficult to catch up after the first session. Because of this, we only accept new cloggers in the first session.

Equipment List:

- » Water Bottle.

Fitness Levels Defined

We have recently updated our fitness level system to help you easily decide which courses may be a fit for you. Simply use the new symbols below to find an appropriate class.

Most of the classes at our centre are designed to be inclusive and accommodate different levels of fitness. Our instructors are experienced with teaching older adults and can provide options so that participants can work at their own speed and fitness level.

Gentle

Gentle fitness classes are a good match for individuals who are new to fitness classes, have physical limitations, and/or who are returning to fitness after an injury.

If you are looking to build your coordination and balance, need a seated class or activities with low to no impact, Gentle classes would be a good match

Gentle programs may include a cardio component of 15–25 minutes of aerobic exercises with no/limited floor exercises.

Moderate

Moderate fitness classes are good for individuals who are increasing their activity and are able to get down and up from the floor without assistance. On a scale of 0–10 (with 10 being maximum effort and 0 being at rest), moderate activities are about 5–6.

If you are looking to further increase your coordination and balance and get moving, Moderate classes will get you to sweating and breathing harder.

Moderate programs aim to include a cardio component of 25–35 minutes of aerobic exercise and may include floor exercises.

Vigorous

Advanced fitness classes are a good match for individuals who exercise regularly, and/or are looking for a high intensity workout with little to no physical limitations.

If you are looking to push your body and test your strength, Vigorous classes are for you.

Vigorous programs aim to include a cardio component of 30–40 minutes of aerobic exercise and may include floor exercises. Some programs may include interval training

Richard Restak, M.D. Professor of The George Washington University School of Medicine and Health Sciences discusses how learning something new established pathways consisting of millions of brain cells. With its up to 500 trillion connections, your brain is easily the most powerful machine in the world. These connections are what creates your thoughts, what drives your emotions, and what controls your behaviours. Even more incredibly: this amazing machine is constantly changing through a process known as brain plasticity.

Why is it important to be a lifelong learner?

By taking new classes, exploring new interests, and acquiring practical skills, you can broaden your horizons and connect with like-minded individuals while having fun along the way.

The more you learn, the more you grow, and the better you become at adapting to changes and challenges. Lifelong learning is not just about classroom learning, it means learning throughout your life, whether it's mastering new technologies or cooking techniques, or simply learning something new for the joy of it.

Learning promotes the development of your brain, increases cognitive function, and can even help prevent cognitive decline later in life. It's a proven fact that learning stimulates the brain and reduces stress.

Lifelong learning benefits your brain, your well-being, and your self-esteem, and can help you become the best version of yourself. Get ready to embark on an exciting journey of self-discovery and growth!

"Anyone who stops learning is old, whether at twenty or eighty. Anyone who keeps learning stays young. The greatest thing in life is to keep your mind young."

—Henry Ford.

Throughout history, Tai Chi has been used by Chinese scholars, monks, sages, artists, intellectuals, emperors and their imperial guards, princes and commoners, because of its extraordinary versatility and proven effectiveness.

Whilst drawing from all the strands of Chinese spiritual and philosophical thought, Tai Chi is not tied to any religion or dogma, but is available to any interested student.

Practitioners of yoga, dance or other martial arts often find that the internal and flowing approach of Tai Chi perfectly complements their own training.

New members welcome to all drop-ins! | \$2.00 drop-in fee

Open Jam Evenings

Thursdays 6:00 p.m. to 7:30 p.m.

Music fills the soul. Slam 'n' jam with the best of 'em. You don't have to be an expert musician, just a love of music required. Drop in with your guitar, banjo or any instrument you fancy.

Singing with Strings

Fridays 10:00 a.m. to 12:00 p.m.

Program will pause for July & August

Formally known as The Silvertones, this drop in group is composed of musicians who like to play and/or sing and share new material with others. Members predominantly play string instruments and have varying musical backgrounds.

Ukulele/All Instrument Circle

Wednesdays 1:00 p.m. to 3:00 p.m.

Please bring your instrument, tuner, pencil and eraser.

The group rotates between playing music from The Blue and Yellow Daily Ukulele books by Jim Beloff and music given to you on a USB drive which you may print. We have a copy you may borrow to try before you buy.

It is recommended that you can move quickly among C, Am, F, and G, G7 as a minimum. It would be more comfortable if you also were familiar with D, D7, A, A7, and E7.

The music for this group consists of only lyrics and chords suitable for any stringed instrument.
