

FALL 2024

GeriActors Public Workshops & Classes

GeriActors is an intergenerational theatre company based in Amiskwacîwâskahikan (Edmonton).

Adhering to the principles of creative aging, we believe that seniors' engagement in the arts leads to significant health benefits, an overall sense of well-being and a marked increase in social engagement.

Our programs seek to challenge stereotypes, promote authentic views on aging and bring people together to share in meaningful discussions about lived experiences.

Public Workshops & Classes

Our theatre classes and workshops are a great way to get creative, meet new people, share stories, and laugh!

GeriActors combines playfulness with technique to create unique and fun theatre programs for ages 55+. All our programs are facilitated by local theatre artists ready to share their "theatre know-how". Whether you have a history in the theatre, have always dreamt of performing, or just want to try something new, this is the perfect place to start.

Accessibility

- Our programs can be adapted by our professional theatre facilitators to suit all abilities and needs.
- Subsidies for our programs may be available.
